

MOLECULAR AND CELLULAR BIOLOGY SEMINAR

at SUSCHOO | LOFB | OROX | TH | SSP | R | NG | 17

WEDNESDAYS 12PM, SLB 121

Date	Speaker	Tentative Titles
15 Feb	Trevor Rickerd (Kirik Lab)	Did you see that! Those tubules came out of nowhere and I don't even study them (I study pectin)!
22 Feb	Dilini Ralalage (Hammond Lab)	MSUD, why won't you reveal your secrets to me?
01 Mar	Michaela McGinn Lottes (Sedbrook Lab)	Pennycress: get up-all-night greasy!
08 Mar	Gloria Alvarado (Larson Lab)	G4: it's important, kinda. Well at least we think it might be kinda important.
15 Mar	Spring Break	Whooo hoooo!
22 Mar	Jamie Young (Larson/Perry Labs)	UV-resistant sponges and the dirty dish debate: Whose turn is it anyway?
29 Mar	Kevin Stanley (Gatto Lab)	Pumping sodium, potassium, and other iums.
05 Apr	Anjelica Rodriguez (Vidal-Gadea Lab)	Living with worms: it's pretty awesome!
12 Apr	Tyler Telander (Sedbrook Lab)	The war on lignin: Have we gone too far?
19 Apr	Michael Almassey (A. Mortimer lab)	Applying stress to a graduate student and his teeny-weeny research subjects.
26 Apr	Nick Rhoades (Hammond Lab)	Maybe I'll talk about MSUD, maybe I'll talk about Spore killer, maybe I'll play the drums.
03 May	Pooja Kadaba Ranganath and Ashley Waring (N. Mortimer Lab)	Parasitic wasp or harmless fruit fly? Choose one.
