

School of Biological Sciences Seminar Series - Fall 2021

Thursday 4-5 pm in FSA133

Pre-Seminar Snacks served 3:30 - 3:55 in FSA

Date	Speaker	Title	Host
Aug 19		No seminar	
Aug 26	Ben Sadd (Held in FSA 133)	Introduction of new Graduate students, Welcome to the new semester	Grad Studies Committee
Sep 2	Lisa Szczepura (Note different time & location)	CAS Distinguished Lecture: Precious Metal Clusters 5 pm, Old Main Room	College of Arts & Sciences
Sep 9		No seminar	
Sep 16	Jonathan Mills ISU Chemistry	Synthesis and Biological Evaluation of Antimicrobial Natural Products	Dahl Lab
Sep 23	Victor Cazares Williams College	Novelty stimulates the formation of a neural engram leading to relapse-resistant fear extinction	Engelke Lab
Sep 30	Chris Oakley Purdue University	The genetic basis of local adaptation and fitness trade-offs	Byers Lab
Oct 7	Nate Mortimer ISU Biology	Invasion of the Body Snatchers	SBS
Oct 14	TBA	Alumni Day	PR Committee
Oct 21	TBA	Weigel Seminar	Phi Sigma
Oct 26 (note Tuesday)	Daniel Goldberg ISU Biology	Rails at Different Scales: Ecological and Evolutionary Drivers of Vocal Behavior in Rallidae	Capparella Lab
Oct 28	Boris Igic University of Illinois Chicago	The History and Consequences of Self-incompatibility in Flowering Plants	Byers Lab
Nov 4	Trevor Rickerd ISU Biology	Dissertation Seminar	Kirik Lab
Nov 11	Jacob Kagey University of Detroit Mercy	Dealing with death in genetic screens	Vrailas-Mortimer Lab
Nov 18	Laura Figueroa Cornell University	Bee pathogen transmission in plant-pollinator networks	Sadd lab
Nov 25	Thanksgiving	No seminar	
Dec 2		No seminar
