

# INTEGRATIVE BIOLOGY SEMINAR

Fall 2020  
Tuesday, Noon  
SLB 121 & ZOOM

Date	Speaker	Title
25 Aug	No Seminar	
01 Sep	No Seminar	
08 Sep	No Seminar	
15 Sep	No Seminar	
22 Sep	Ian Rines (Sakaluk, Sadd Labs)	Battle of the sexes: nuptial food gifts as a device for manipulating female reproduction
29 Sep	Olivia Brooks (Dugas Lab)	Variation in the maternal provisioning of alkaloids in the strawberry poison frog <i>Oophaga pumilio</i> : the relationship between mothers and their tadpole offspring
06 Oct	Pooja Kadaba Ranganath (N. Mortimer Lab)	Role of the pathogen-induced immune response in tumor metastasis
13 Oct	Eva Gunawan (N. Mortimer Lab)	Bioinformatic analysis of the Cow Killer Wasp venom
20 Oct	Jaclyn Everly (Juliano Lab)	Overcompensation in mosquito larval populations results from inadequate larviciding
27 Oct	Logan Sauers (Sadd Lab)	The role of gut microbial communities in the health of their pollinator hosts.
03 Nov	No Seminar	Election Day
10 Nov	Elyse McCormick (Sadd Lab)	Consequences of microsporidian and virus coinfection for parasite dynamics and bumble bee pollinator host health
17 Nov	Sadia Sultana (Dahl Lab)	Biofilm: UPEC's strategy to confront HOCl stress
24 Nov	No Seminar	Thanksgiving Break
01 Dec	No Seminar	End of Semester
