

# Fall '22

# Th 4-5 PM in FSA 133

Date	Speaker & Affiliation	Title of the Talk	Host Lab
25-Aug	<b>No Seminar</b>		
1-Sep	<b>No Seminar</b>		
8-Sep	Brian Piasecki, Lawrence University	Identification of functional sites and interacting partners of MAPK-15: an evolutionarily conserved ciliary protein expressed in <i>C. elegans</i> neurons	Engelke
15-Sep	Robert O Watson (Texas A & M)	Holey Moley: how host membrane perturbations shape innate immune and infection outcomes	Phi-Sigma Weigel Seminar
22-Sep	CAS fall address	<b>No Seminar</b> , Dean Fall Address	
29-Sep	Lisa Treidel, University of Nebraska	Evolutionary Physiology of Insect Flight and Dispersal Polymorphisms	Alumni Genetics (Bowden)
6-Oct	Ryan Paitz (ISU)	Understanding the complexities of the endocrine environment early in embryonic development	Tenure talk
13-Oct	Naureen Javeed (Mayo)	The Long and Winding Road: An Unconventional Path to Academia	Alumni Seminar (Edwards)
20-Oct	Ben Sadd (ISU)	It's a gut feeling: the evolutionary ecology of host-microbiota interactions	Promotion to Full
27-Oct	Tom Hammond (ISU)	Spore killing and gene drive in fungi	Promotion to Full
3-Nov	Bradley Tolar (University of NC Wilmington)	Population Dynamics of Coastal Marine Archaea	Sadd lab
10-Nov	Judith Behnsen (University of Illinois Chicago)	Cross-kingdom interactions between <i>Candida</i> and <i>Salmonella</i>	Dahl Lab
17-Nov	Matt Schrader (University of the South)	Animal families as a model for studying social evolution	Dugas Lab
24-Nov	<b>No Seminar - Thanksgiving</b>		
1-Dec	Dr. Jessica Deichmann (Smithsonian)	Science for solutions: tropical biodiversity research to support sustainable development	Vidal-Gadea
8-Dec	Dr. Ron Yu (Stowers Institute for Medical Research)	TBD	Stein lab
